PUBLIC HEALTH REPORTS.

[Reports to the Surgeon-General Public Health and Marine-Hospital Service.]

Smallpox at Detroit, Mich.

DETROIT, MICH., September 28, 1902.

SIR: I have the honor to report that a sailor from the steamship *City of Cleveland* applied for relief at the United States marine hospital at this port Sunday, September 28, 1902, suffering from smallpox. The city health officer was notified and he examined the case and immediately sent for the city ambulance and had the patient removed to the city smallpox hospital. He also sent a physician to the vessel to disinfect the same and vaccinate any of the crew who had been exposed. The necessary precautions were taken at the hospital.

Respectfully,

H. W. AUSTIN,
Surgeon.

Arrival at Reedy Island Quarantine of vessels from Cuban ports.

REEDY ISLAND QUARANTINE,
via Port Penn, Del., September 28, 1902.

SIR: Through the medical officer in command of national quarantine service on Delaware Bay and River, I have the honor to report the arrival at this station on the 26th instant of the steamship *Truma*, from Havana, with sugar; no passengers; bill of health signed by Assistant Surgeon Trotter.

Respectfully,

T. F. RICHARDSON,
Assistant Surgeon, In Command.

REPORTS FROM THE MEXICAN BORDER.

El Paso, Tex., September 27, 1902—Inspection service.—I have the honor to submit the following summary of transactions at this station for the week ended September 27, 1902: Inspection of Mexican Central Railroad passengers, 198; inspection of Rio Grande and Pacific Railroad passengers, 17; inspection of Mexican immigrants, 214; disinfection of soiled linen imported for laundry, 502 pieces; disinfection of cattle hides 418; disinfection of baggage of 2 men ten days out from Vera Cruz. Vaccination of emigrant children, 9.

E. ALEXANDER,
Acting Assistant Surgeon.

Statistical reports of States and cities of the United States—Yearly and monthly.

CALIFORNIA—*San Diego.*—Month of August, 1902. Estimated population, 20,000. Total number of deaths, 16, including 4 from tuberculosis.

COLORADO—*Denver.*—Month of August, 1902. Estimated population, 150,000. Total number of deaths, 210, including diphtheria, 8; enteric fever, 15; whooping cough, 1, and 41 from tuberculosis.

CONNECTICUT—*New Haven*.—Month of April, 1902. Estimated population, 111,000. Total number of deaths, 155, including diphtheria, 2; enteric fever, 3; measles, 2; scarlet fever, 3, and 22 from tuberculosis.

Month of May, 1902. Estimated population, 111,000. Total number of deaths, 133, including measles, 1; scarlet fever 1; whooping cough, 3, and 19 from tuberculosis.

FOREIGN AND INSULAR.

AUSTRALIA.

Second suspected case of plague at Newcastle.

NEWCASTLE, NEW SOUTH WALES, *August 24, 1902.*

SIR: I beg to report another (second) suspected case of plague. Very few well informed physicians here believe it to have been a case of true bubonic, and as no official notice was given, and as the contacts were allowed to go to their homes, or elsewhere, while the property was closed but one day for inspection and cleaning, I practically ignored the matter. No other case has developed, though this case occurred some two weeks ago.

Respectfully,

F. W. GODING,
United States Consul.

The ASSISTANT SECRETARY OF STATE.

BARBADOS.

Smallpox situation.

BARBADOS, WEST INDIES, *September 15, 1902.*

SIR: I have to report to the Department that there have been 481 cases of smallpox here since July 13, 1902. Of these, 201 cases are isolated at quarantine station on Pelican Island and separate from the mainland, 221 are isolated at their homes, 38 have been released, and 21 have died. This morning's report for the last two weeks ended last night shows 266 cases and 11 deaths.

Respectfully,

S. A. MACALLISTER,
United States Consul.

The ASSISTANT SECRETARY OF STATE.

BRITISH HONDURAS.

Weekly report of conditions and transactions at Belize—Fruit port.

BELIZE, BRITISH HONDURAS, *September 20, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended September 20, 1902:

Population according to census of 1901, 9,113; present officially estimated population, about 7,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 4. Causes of death: Debility, 1; senectus, 1; chronic bronchitis, 1; peritonitis, 1. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health were issued to the following vessels: September 14, steamship *Statia*; crew, 36; passengers from this port, 2; passengers

in transit, 1; baggage disinfected, 6 pieces. September 18, steamship *Condor*; crew, 15; passengers from this port, none; passengers in transit, none; baggage disinfected, none. September 19, steamship *Anselm*; crew, 41; passengers from this port, 4; passengers in transit, 23; baggage disinfected, 12 pieces.

Respectfully,

R. H. PETERS,
Acting Assistant Surgeon.

The SURGEON-GENERAL.

CHINA.

Report of transactions at Shanghai, China.

SHANGHAI, CHINA, September 1, 1902.

SIR: I have the honor to transmit herewith abstracts of bills of health issued at this port for the week ended August 30, 1902. There were inspected during the week 4 steamships, 338 crew, 189 steerage, and 27 cabin passengers. Shipping orders were viséed for 21,295 pieces of freight and 552 pieces were rejected. During the week there were reported in the municipality 2 deaths from smallpox, 55 from cholera, 2 from typhoid fever, and 5 from malaria. Of these there were among the foreign population 2 deaths from cholera, 2 from typhoid, and 5 from malaria.

Respectfully,

S. J. RANSOM,
Acting Assistant Surgeon.

The SURGEON GENERAL.

COLOMBIA.

Weekly report of conditions and transactions at Bocas del Toro—Fruit port.

BOCAS DEL TORO, COLOMBIA, September 23, 1902.

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended September 22, 1902:

Population according to census, not obtainable. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, none. Prevailing diseases, malarial. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health were issued to the following vessels: September 17, steamship *Hispania*; crew, 22; passengers from this port, none; passengers in transit, none; baggage disinfected, none. September 20, steamship *Harald*; crew, 19; passengers from this port, none; passengers in transit, none; baggage disinfected, none.

Respectfully,

PAUL OSTERHOUT,
Acting Assistant Surgeon.

The SURGEON-GENERAL.

COSTA RICA.

Weekly reports of conditions and transactions at Port Limon—Fruit port.

PORT LIMON, COSTA RICA, September 18, 1902.

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended September 18, 1902:

Present officially estimated population, 4,000. Number of cases and deaths from yellow fever during the week, none; number of cases and

deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 6. Prevailing disease, malarial fever of a mild type. General sanitary condition of this port and the surrounding country during the week has been fairly good. The 6 deaths noted above occurred in this port—2 white adult males, due, respectively, to asphyxia by drowning and pernicious anæmia; also 4 colored males, 2 adults and 2 infants, due, respectively, to Bright's disease, acute enteritis, congestion of the brain, and dentition.

Bills of health were issued to the following vessels: September 11, steamship *Kitty*; crew, 20; passengers from this port, none; passengers in transit, none; baggage disinfected, none. September 12, steamship *Alabama*, crew, 18; passengers from this port, none; passengers in transit, none; baggage disinfected, none. September 13, steamship *S. Oteri*; crew, 30; passengers from this port, none; passengers in transit, 1; baggage disinfected, none. September 14, steamship *Holstein*; crew, 23; passengers from this port, none; passengers in transit, none; baggage disinfected, none. September 15, steamship *Allegheny*; crew, 43; passengers from this port, 14; passengers in transit, 10; baggage disinfected, none.

Respectfully,
The SURGEON GENERAL.

WM. H. CARSON,
Acting Assistant Surgeon.

PORT LIMON, COSTA RICA, September 25, 1902.

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended September 25, 1902:

Present officially estimated population, 4,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 8. Prevailing diseases were malarial fever, and gastro-enteritis. General sanitary condition of this port and the surrounding country during the week was fairly good. The 8 deaths noted above occurred in this port—1 white adult male, Nicaraguan, from tertiary syphilis, in a hospital; 2 white infants from pernicious (malarial) fever; also 5 colored infants, due, respectively, to marasmus, congenital syphilis, ascariides, and 2 from acute gastro enteritis. In all justice to this port it must be said that to-day no suspicion can be entertained as to the existence here of yellow fever, nor even "yellowoid."

Bills of health were issued to the following vessels: September 19, steamship *Olympia*; crew, 38; passengers from this port, none; passengers in transit, none; baggage disinfected, none. September 20, steamship *Foxhall*; crew, 26; passengers from this port, none; passengers in transit, none; baggage disinfected, none. September 21, steamship *Columbia*; crew, 18; passengers from this port, none; passengers in transit, none; baggage disinfected, none. September 22; steamship *Alene*; crew, 42; passengers from this port, 5; passengers in transit, 4; baggage disinfected, none. September 24, steamship *Kitty*; crew, 20; passengers from this port, none; passengers in transit, none; baggage disinfected, none.

Respectfully,
The SURGEON-GENERAL.

WM. H. CARSON,
Acting Assistant Surgeon.

CUBA.

*Report from Matanzas.*MATANZAS, CUBA, *September 29, 1902.*

SIR: Through the medical officer in command, Havana, Cuba, I have the honor to make the following report for the week ended September 27,*1902:

Four bills of health were issued to vessels leaving this port for the United States. On September 24, 1902, the British steamship *Cayo Mono*, with a cargo of sugar, was disinfected prior to sailing for New Orleans. On September 25, the Italian steamship *Giuseppe Corvaja* was disinfected prior to sailing for Mobile.

Eighteen deaths were reported in this city due to the following-named causes: Tuberculosis, 8; paludism, 1; nephritis, 1; enteritis, 1; myelitis, 1; other causes, 6. Annual rate of mortality for the week 19.25 per 1,000. No quarantinable disease was reported.

Respectfully,

R. H. VON EZDORF,
Assistant Surgeon.

The SURGEON-GENERAL.

*Report from Santiago de Cuba.*SANTIAGO DE CUBA, *September 23, 1902.*

SIR: Through Asst. Surg. F. E. Trotter, at Havana, I have the honor to submit the following report for the week ended September 20, 1902: Bills of health were issued to 7 vessels bound for the United States and Porto Rico. Two vessels were disinfected before leaving, namely, the Cuban steamship *Julia*, bound for San Juan, P. R., and the American schooner *Calumet*, bound for Port Tampa, Fla. No quarantinable disease has been reported. I inclose the weekly abstract of bills of health and the mortality statistics for the week.

Respectfully,

RICHARD WILSON,
Acting Assistant Surgeon.

The SURGEON-GENERAL.

[Inclosure.]

Puerperal hemorrhage.....	1
Elephantiasis.....	1
Total	10

Annual rate of mortality for the week 12 per 1,000. Estimated population, 43,000.

EGYPT.

Cholera in Cairo and Alexandria.

CAIRO, EGYPT, September 8, 1902.

SIR: I have the honor to confirm the following cablegram to the Department under date of the 7th instant:

SECRETARY OF STATE, Washington, D. C.:

Since September 1, 6,300 new cases, 5,099 deaths, all Egypt. Twenty-eight new cases Cairo, 125 deaths, for week; Alexandria, 49 cases, 71 deaths; 1 imported case Port Said.

SMITH.

As will be seen by comparison with the figures given in my cablegram of the 31st ultimo, the cholera epidemic in Egypt is spreading at an alarming rate.

The Egyptian Gazette of the 5th instant says—

We are bound to confess that we view the situation, both present and prospective, with very great anxiety. The disease has obtained so firm and extensive a footing in the country that the epidemic bids fair to eclipse that of 1883, and certainly that of 1896. The director-general of the sanitary department confesses that he anticipates no amelioration for some weeks to come; he has further stated that with the return of cool weather there should be a change for the better, so that from the two statements we deduce that the authorities are prepared to record the ravages of the disease in its present malignancy until well into October. * * *

Since the 1st instant the conditions in Cairo have improved slightly, the totals of new cases and deaths being less than those for the week preceding. Alexandria, however, is not faring so well, as a comparison of the following will show:

Return of cholera cases in Cairo and Alexandria for the two weeks ending August 31 and September 7, respectively.

	New cases.	Deaths—	
		In hospital.	Out hospital.
Cairo:			
August 25 to August 31.....	39	34	117
September 1 to September 7.....	28	19	106
Alexandria:			
August 25 to August 31.....	10	6	5
September 1 to September 7.....	49	26	45

Garbieh Province is sorely afflicted, the statistics showing for the week ended September 7, 830 new cases, and 1,080 deaths in that province alone. Assiout comes next with 570 new cases and 777 deaths for the same period. Dakalieh, 435 new cases, 672 deaths; Charkieh, 480 new cases, 554 deaths; Menoufieh, 353 new cases, 449 deaths; Gizeh, 268 new cases, 316 deaths; Galioubieh, 228 new cases, 319 deaths; Behera, 200 new cases, 327 deaths; Guirguez, 180 new cases, 315 deaths; Minieh, 160 new cases, 254 deaths; Beni-Souef, 120 new cases, 131 deaths, and Fayoum, 60 new cases and 86 deaths.

While the statistics furnished by the sanitary department are the most reliable obtainable, it should be borne in mind that a very large number of cases in the country districts and villages are concealed from the authorities and therefore not included in the official figures. Many of the natives have an idea that the sanitary department is doing its

best to interfere with their liberty, religious customs, and domestic traditions, and the officers of the department are often refused admittance to houses where sickness prevails and have to resort to forcible measures to gain an entrance.

In several instances the native heads of villages in the interior have been punished for deliberately concealing cases of cholera.

With reference to the case of cholera reported at Port Said, it was an imported one, the victim having arrived the night before by train from one of the affected towns; he died the same day and the port is again free from the disease.

Respectfully,

H. T. SMITH,
Vice Consul-General.

The ASSISTANT SECRETARY OF STATE.

Cholera situation improving.

WASHINGTON, D. C., *September 29, 1902.*

SIR: I have the honor to inform you that a telegram dated September 27, 1902, has been received by this Department from the vice consul general in charge at Cairo, in regard to the epidemic of cholera in Egypt in the following words: "Since 20th instant 4,647 cases and 4,032 deaths. Conditions continue improve rapidly."

Respectfully,

ALVEY A. ADEE,
Acting Secretary of State.

The SECRETARY OF THE TREASURY.

ENGLAND.

Report from Liverpool.

LIVERPOOL, ENGLAND, *September 23, 1902.*

SIR: I have the honor to state that for the two weeks ended September 20, 1902, there were reported to the local authorities the following cases: Smallpox, 5; typhus fever, 9. As I anticipated, the smallpox has decreased very satisfactorily in the last two weeks, the cause of the trouble having been traced and isolated.

Respectfully,

CARROLL FOX,
Assistant Surgeon.

The SURGEON-GENERAL.

Reports from London.

LONDON, ENGLAND, *September 18, 1902.*

SIR: I have the honor to state that the following diseases were reported to the local health authorities for the week ended September 13, 1902: Smallpox, 7; scarlet fever, 311; diphtheria, 155, and enteric fever, 70. There were 71 cases of smallpox, 2,669 of scarlet fever, 986 of diphtheria, and 323 of enteric fever under treatment at the close of the week. In England and Wales, 4 deaths occurred from smallpox, 2 of which belonged to London and 2 to West Ham. The quarantine against smallpox was discontinued from September 5, 1902, in accordance with Bureau cablegram of the 4th instant.

Respectfully,

JOHN McMULLEN,
Passed Assistant Surgeon.

The SURGEON-GENERAL.

*Transactions of station from July 1 to September 15, 1902.*LONDON, ENGLAND, *September 18, 1902.*

SIR: In compliance with Bureau letter of May 28, 1902, I have the honor to submit the following supplemental report of the transactions at this station from July 1, 1902, to September 15, 1902: During this time there were inspected and given bills of health 69 vessels; 3,416 crew and 481 cattlemen were inspected, and of these, 789 were vaccinated by the Service. The crews and cattlemen of those vessels carrying surgeons were vaccinated by the ship's surgeon. Seventeen of these vessels were bound for Philadelphia, 16 for New York, 10 for Boston, 6 for New Orleans, 4 each for Savannah and Newport News, 3 for San Francisco, 2 for Baltimore, and the remaining 7 for various ports. The number of cases of smallpox in London and Greater London in March last was about 1,600, but, as stated in a previous report, the number began to decrease in May. The weekly admissions have constantly decreased since this time, and now only about 70 cases of this disease exist in London and vicinity. The quarantine against smallpox at London was discontinued from September 5, 1902, in accordance with Bureau cablegram of the 4th instant.

Respectfully,

JOHN McMULLEN,
Passed Assistant Surgeon.

The SURGEON-GENERAL.

GERMANY.

*Report from Berlin—Plague and cholera in various countries.*BERLIN, GERMANY, *September 22, 1902.*

SIR: I have the honor to transmit herewith the latest information regarding plague and cholera, obtained from the imperial health office (Kaiserlichen-Gesundheitsamt), Berlin:

Plague.

RUSSIA.—According to the Government Gazette, further cases of suspected plague have occurred in Odessa. During the period from August 24 to September 2 there were registered 11 cases of suspected plague and 2 deaths. On September 7, 2 new cases were reported.

EGYPT.—During the week from August 29 to September 4, 6 fresh plague cases and 3 deaths were recorded, all in Alexandria.

BRITISH INDIA.—In the Bombay Presidency during the week ended August 15, there were registered 3,838 fresh plague cases and 2,669 deaths.

Cholera.

RUSSIA.—Between September 1 and September 6 fresh cholera cases were registered in Blagoweschtschensk and the same number in Chabarowski. In Vladivostock during the same period 48 cases were recorded.

EGYPT.—During the week ended September 1 the number of cholera cases increased considerably. At the end of the week cases were reported from 604 districts of lower and upper Egypt. The total number of cases recorded during the week amounted to 3,875, with 2,890 deaths.

STRAITS SETTLEMENTS.—During the week from July 27 to August 2, 5 cholera cases occurred in Singapore, all with fatal termination.

JAPAN.—Toward the end of July and the beginning of August the cholera cases in Nagasaki had increased considerably, 120 cases having been registered up to August 6, with 53 deaths.

Respectfully,

FRANK H. MASON,
United States Consul-General.

The SURGEON-GENERAL.

International conference on tuberculosis.

NAPLES, ITALY, *September 19, 1902.*

SIR: I have the honor to submit the following report: An announcement has been issued from the office of the international central committee, No. 2 Wilhelmplatz, Berlin, that the next conference on tuberculosis will be held in Berlin, October 22, 1902, and will be in session for five days. The evening of the first day a general meeting will be held to receive the members of the congress. Thereafter meetings will be held every morning and afternoon during the session for the discussion of the questions formulated in the program. The subjects to be given special consideration are the position of governments regarding the prevention of tuberculosis; the obligation to give information to the police; the organization of dispensaries; the duty of schools with regard to the prevention of tuberculosis; precautions against the dangers of milk; tuberculosis during infancy; protection of labor and prevention of tuberculosis, and the classification of and different modes of accommodating consumptives.

Respectfully,

J. M. EAGER,
Passed Assistant Surgeon.

The SURGEON-GENERAL.

GUATEMALA.

Weekly report of conditions and transactions at Livingston—Fruit port.

LIVINGSTON, GUATEMALA, *September 23, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended September 23, 1902:

Present officially estimated population, 3,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 2. Prevailing disease, malarial fever. General sanitary condition of this port and the surrounding country during the week, good.

Bill of health was issued to the following vessel: September 23, steamship *Managua*; crew, 17; passengers from this port, none; passengers in transit, none; baggage disinfected, none.

Respectfully,

GUY A. DARCANTEL,
For A. J. SMITH,
Acting Assistant Surgeon.

The SURGEON-GENERAL.

HAWAIIAN ISLANDS.

*Report of outgoing quarantine at Honolulu.*HONOLULU, H. I., *September 15, 1902.*

SIR: I have the honor to make the following report in regard to outgoing quarantine transactions at this port for the week ended September 19, 1902: Number of steamships inspected and passed, 2; number of sailing vessels inspected and passed, 5; number of cabin passengers inspected and passed, 95; number of steerage passengers inspected and passed, 7; number of crew inspected and passed, 67; number of pieces of baggage disinfected, 41; number of sailing vessels disinfected, 4.

Respectfully,

W. C. HOBDY,

Assistant Surgeon, In Temporary Charge.

The SURGEON-GENERAL.

HONDURAS.

*Weekly reports of conditions and transactions at La Ceiba—Fruit port.*LA CEIBA, HONDURAS, *September 20, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended September 20, 1902:

Present officially estimated population, about 4,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 4. Prevailing disease, malaria, few cases mild types. The causes of above deaths were: Chronic nephritis, drowning, murder, and suicide. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health were issued to the following vessels: September 14, American steamship *David*; crew, 24; passengers from this port, none; passengers in transit, none; baggage disinfected, none. September 20, British steamship *Usk*; crew, 20; passengers from this port, none; passengers in transit, none; baggage disinfected, none.

Respectfully,

W. B. ROBERTSON,

Acting Assistant Surgeon.

The SURGEON-GENERAL.

*Weekly reports of conditions and transactions at Puerto Cortez—Fruit port.*PUERTO CORTEZ, HONDURAS, *September 18, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended September 18, 1902:

Population according to census of 1896, 1,856; present officially estimated population, 2,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 2. Prevailing disease, malarial fever. General sanitary condition of this port and the surrounding country during the week, good. One death from diabetes mellitus, other, chronic Bright's disease.

Bills of health were issued to the following vessels: September 11, steamship *Breakwater*; crew, 34; passengers from this port, 10; passengers in transit, none; baggage disinfected, 18 pieces. September 13, steamship *España*; crew, 15; passengers from this port, 3; passengers

in transit, none; baggage disinfected, none. September 16, steamship *Hiram*; crew, 15; passengers from this port, none; passengers in transit, none; baggage disinfected, none. September 17, steamship *Geo. Dumois*; crew, 18; passengers from this port, none; passengers in transit, none; baggage disinfected, none.

Respectfully,

S. H. BACKUS,
Acting Assistant Surgeon.

The SURGEON-GENERAL.

PUERTO CORTEZ, HONDURAS, *September 25, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended June 25, 1902:

Population according to census of 1896, 1,856; present officially estimated population, 2,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, none. Bills of health were issued to the following vessels: September 18, steamship *Anselm*, number of crew, 41; number of passengers from this port, 5; number of passengers in transit, 18; pieces of baggage disinfected, 10. September 19, steamship *Bratten*; number of crew, 15; number of passengers from this port, none; number of passengers in transit, none; pieces of baggage disinfected, none.

Respectfully,

S. H. BACKUS,
Acting Assistant Surgeon.

The SURGEON GENERAL.

JAPAN.

Cholera in Okayama.

KOBE, JAPAN, *August 21, 1902.*

SIR: I beg to confirm my telegram reading thus:

KOBE, JAPAN, *August 28, 1902.*

SECRETARY OF STATE, *Washington, D. C.*: Cholera, Okayama.—LYON.

Also to inclose a clipping from the Kobe Chronical descriptive of the cholera outbreak at Okayama.

The city of Okayama is situated about 72 miles from this port, and from the prefecture of Okayama much matting and straw braid is sent to Kobe for shipment to the United States, but none from the prefecture is allowed to leave Kobe, unless it is shown not to have come within 5 miles of Okayama City since the cholera outbreak.

Shippers are now required to make oath that the mattings and straw-braid sent by them have not come within 5 miles of the city of Okayama since July 15 last. I also inclose copy of notice sent out to shippers at this port.

Respectfully,

SAMUEL S. LYON,
United States Consul.

The ASSISTANT SECRETARY OF STATE.

Cholera in Japan.

[Inclosure.]

[Clipping from the Kobe Chronical—Cholera.]

The cholera outbreak at Okayama threatens to increase, and the authorities of the home department have decided to appoint special inspection officials with a view to a more vigorous crusade against the epidemic.

Since the 29th ultimo, when cholera first appeared in the city, 262 cases had been reported up to the 4th instant, of which 133 ended fatally. On the 3d instant 70 cases (28 fatal) were recorded, and on the 4th the number fell off to 31 cases, 21 ending fatally. The disease has penetrated the spinning mills and the prison; and it has been arranged that upon the arrival from Tokyo of Mr. Kurimoto, an expert in the home department, anti-cholera serum shall be first administered to the prisoners, numbering 1,300, and then to the inhabitants of that part of the town where the disease is most virulent.

On the evening of the 3d instant the Moji municipal assembly held a special meeting and adopted a proposal to appropriate 58,549 yen to the fund for the suppression of cholera. Of this sum, 25,111 yen would, it was hoped, be drawn from the money raised by prefectural taxes.

[Circular.]

KOBE, JAPAN, August 8, 1902.

To shippers:

Having been officially informed of the existence of cholera in epidemic form in the city of Okayama, shippers are hereby notified that no mattings, strawbraids, or other articles from that city, or within 5 miles of it, will be allowed to leave Kobe for any port in the United States, until further notice, unless such shall be shown to have been sent forward from the said city, or within 5 miles of the same, previous to July 15 last.

SAMUEL S. LYON,
United States Consul.

J. BUCKNILL FOWLER,
Acting Assistant Surgeon, Sanitary Inspector, Kobe, Japan.

KOREA.

Precautions against cholera.

SEOUL, KOREA, August 3, 1902.

SIR: I have the honor to inform you that cases of cholera having occurred in Nagasaki, Shimonosaki, and other ports in Japan, which are in communication with Chemulpo and other ports in Korea, and also in Port Arthur, which is in direct communication with Chemulpo, a meeting of the consuls of the treaty powers, the kamui and the commissioner of customs of Chemulpo was held on the 4th instant, at which it was decided that all the ports of Japan as well as the Russian ports in the Lioatung Peninsula were infected with cholera, and that in accordance with section 9 of the regulations for the prevention of the introduction of infectious diseases into Korea, quarantine regulations would be enforced against all vessels arriving from such ports on and after the 5th instant. It was also decided that the commissioner of customs of Chemulpo should enforce the regulations against vessels arriving from those ports of Korea which might thereafter become infected without calling a further meeting of the consuls, etc. Cases of cholera having been reported at the Korean port of Chenampo, the commissioner of customs notifies me that quarantine regulations will, therefore, be enforced against vessels arriving from that port from the 8th instant.

Respectfully,

GORDON PADDOCK,
Secretary of Legation.

The ASSISTANT SECRETARY OF STATE.

Cholera situation.

SEOUL, KOREA, August 30, 1902.

SIR: I have the honor to confirm my telegram of to-day as follows: "Cholera severe Chenampo and north." A temporary board of health has been formed among the local foreign medical men. Quarantine has been established at Korean ports against Chinese infected ports, Port Arthur, and Japanese infected ports.

Cholera has been present for some weeks at the north and at the American gold mines. It is now very severe at the northern port, Chenampo. To day's report is as follows:

Weichu.—No report.

Woonsan (American mines).—No increase. August 9.

Syen Chen (Northwest Korea where some American missionaries live).—It is reported from Syen Chen that in three days from August 5 there had been 20 cases of cholera and 11 deaths. The streets and roads leading from infected districts have been barricaded, and many of the inhabitants have fled to the surrounding hills.

Pengyang.—No cases. August 15.

Chenampo.—August 13, 80 cases. Supply of cholera medicine exhausted. People are dying in the streets, as householders refuse to harbor sick people. Many inhabitants leaving the town for Whang Hai Do. August 17, 92 cases, 50 deaths. Disease still spreading rapidly. Two cases in foreign settlement (Chinese). Local board of health requests immediate assistance from Seoul.

Respectfully,

HORACE N. ALLEN,

Envoy Extraordinary and Minister Plenipotentiary.

The SECRETARY OF STATE.

MEXICO.

Confirming telegram reporting yellow fever—History of cases.

TAMPICO, MEXICO, September 26, 1902.

SIR: I have the honor to confirm the following telegram:

TAMPICO, MEXICO, September 26, 1902.

WYMAN, Washington, D. C.:

One yellow fever dead this morning; 1 convalescing. Infection in city. Steamship *Pensacola* for Pensacola yesterday before information obtained.

GOLDBERGER.

Case 1, L. C., Mexican, 22 years old, came from San Luis Potosi two months ago and has been at work here at his trade, tailoring, since. He sickened on September 18, applied for treatment at the hospital on the 23d instant, and died early this morning, having presented all the symptoms of yellow fever.

Case 2, P. D., Mexican, 25 years old, came to this city one month ago from Rio Verde. Since that time he has worked as day laborer, loading and unloading vessels at the Dona Cecelia wharf. He sickened September 17 and was admitted to the hospital on the 19th. He has presented the symptoms of a mild attack of yellow fever, and is now convalescent.

There appears to be no connection between the two cases.

Respectfully,

JOS. GOLDBERGER,

Assistant Surgeon.

The SURGEON GENERAL.

NICARAGUA.

Weekly reports of conditions and transactions at Bluefields—Fruit port.

BLUEFIELDS, NICARAGUA, September 27, 1902.

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended September 27, 1902:

Present officially estimated population, 4,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, none. Prevailing diseases, measles and malarial fever. General sanitary condition of this port and the surrounding country during the week, very good.

Bills of health were issued to the following vessels: September 21, steamship *Utstein*; crew, 16; passengers from this port, none; passengers in transit, none; baggage disinfected, none. September 27, steamship *Esther*; crew, 20; passengers from this port, 8; passengers in transit, none; baggage disinfected, 14 pieces.

Respectfully,

D. W. GOODMAN,
Acting Assistant Surgeon.

The SURGEON-GENERAL.

PORTO RICA.

Report from Ponce.

PONCE, P. R., September 22, 1902.

SIR: Through the chief quarantine officer for Porto Rico, I have the honor to transmit herewith the quarantine and abstract of bills of health reports for the week ended September 20, 1902.

Six vessels were inspected, of which 3 were held in quarantine. Three bills of health were issued.

Two pieces of baggage from Santo Domingo arriving on the 14th in the schooner *Corazon de Jesus* were disinfected. Vessel not held.

On the 17th, the French steamship *Salvador* arrived from Port au Prince, Les Cayes, Jeremie, Jacmel, Santo Domingo, and Mayaguez. Fifteen pieces of baggage and 2 sacks of mail were disinfected. Vessel was held in quarantine and sailed on the same day. Spanish steamship *Buenos Aires* arrived from Havana, Port Limon, Colon, Sabanilla, Puerto Cabello, and La Guaira. One passenger, a Porto Rican immune, was allowed to land after disinfection of baggage consisting of 4 pieces. The vessel was very dirty and was held in quarantine, sailing on the same day.

On the 18th, the Cuban steamship *Julia* arrived from Havana, Nuevitis, Gibara, Santiago, Santo Domingo, and Macoris. Twenty-two pieces of baggage and 2 sacks of mail were disinfected. The vessel was held in quarantine and sailed on the same day.

No quarantinable disease is reported in Ponce. The sanitary condition of the city is being improved a little by a much needed cleaning of the streets.

Respectfully,

W. W. KING,
Assistant Surgeon.

The SURGEON-GENERAL.

Report from San Juan—Death from suspicious illness on Spanish steamship Buenos Aires.

SAN JUAN, P. R., September 22, 1902.

SIR: I have the honor to report that the Spanish steamship *Buenos Aires* arrived at this port at midday on the 18th instant, from Havana, Port Limon, Colon, Sabanilla, Puerto Cabello, La Guaira, and Ponce.

All persons on board were well, with the exception of one steerage passenger, who was comatose upon arrival here and who died at 9.30 p. m. on the evening of arrival.

The patient, a Syrian of 18 years of age, was in transit from Lima, Peru, to Europe. He was in Colon two days waiting for this steamship, and he went on board her upon the 10th instant apparently in good health, except that he appeared anæmic.

He suffered much from seasickness during the early part of the voyage, but was up and about until the 17th, when he was found comatose upon the deck.

Upon arrival here the case presented certain difficulties as to diagnosis, but the vessel was quarantined and treated as though the case was one of undoubted yellow fever.

The dead body was removed to the quarantine station, a post-mortem examination made, and the body buried in a remote part of the reservation, the coffin and grave being filled with quicklime.

Without going into details as to the history of the case, its symptoms and post-mortem findings, it appears that the diagnosis does not determine whether the case was one of pernicious malarial fever, yellow fever, or acute yellow atrophy of the liver.

Pathological specimens are in process of preparation and will be forwarded to the hygienic laboratory for examination. Accompanying these will be forwarded in detail the gross post-mortem findings in the case.

The *Buenos Aires* sailed from this port for Spain on the 18th instant, having declined disinfection here.

Respectfully,

H. S. MATHEWSON,
Passed Assistant Surgeon,
Chief Quarantine Officer for Porto Rico

The SURGEON-GENERAL.

Report of inspection of immigrants at Ponce, P. R., during the week ended September 20, 1902.

PONCE, P. R., September 22, 1902.

SIR: Through the chief quarantine officer for Porto Rico, I submit herewith report of alien steerage passengers arriving at this port during the week ended September 20, 1902. September 17, French steamship *Salvador*, from Port au Prince and Santo Domingo, with 11 immigrants. September 18, Cuban steamship *Julia*, from Havana and Santo Domingo, with 5 immigrants. Total, 16.

Respectfully,

W. W. KING,
Assistant Surgeon.

The SURGEON-GENERAL.

Report of inspection of immigrants at San Juan, P. R., during the week ended September 23, 1902.

SAN JUAN, P. R., September 23, 1902.

SIR: I submit herewith report of alien steerage passengers arriving at this port during the week ended September 20, 1902. September 17, French steamship *St. Simon*, from Haitian and Dominican ports, with 12 immigrants. September 18, Spanish steamship *Buenos Aires*, from Havana, Port Limon, Colon, Barranquilla, Puerto Cabello, La Guaira, and Ponce, P. R., with 2 immigrants. September 19, Cuban steamship *Julia*, from Cuban and Dominican ports, with 20 immigrants. Total, 34.

Respectfully,

H. S. MATHEWSON,
Passed Assistant Surgeon.

Chief Quarantine Officer for Porto Rico.

The SURGEON-GENERAL.

Inspection of immigrants at San Juan, P. R., for the week ended September 20, 1902.

SAN JUAN, P. R., September 22, 1902.

SIR: I herewith submit report of alien steerage passengers arriving at this port during the week ended September 20, 1902.

Mayaguez.—September 9, steamship *José Gallart*, from Spain, with 4 immigrants. September 11, steamship *Salvador*, from Santo Domingo, with 11 immigrants.

Ponce.—September 10, steamship *José Gallart*, from Barcelona, with 4 immigrants.

San Juan.—September 17, steamship *Saint Simon*, from Puerto Plata, with 12 immigrants. September 18, steamship *Buenos Aires*, from La Guaira, with 2 immigrants. September 19, steamship *Julia*, from Havana, Santiago de Cuba, Macoris, and Santo Domingo, with 20 immigrants. Total, 53.

Respectfully,

FRED V. MARTIN,
Commissioner.

The SURGEON-GENERAL.

Inspection of immigrants at the subports of Porto Rico.

SAN JUAN, P. R., September 23, 1902.

SIR: I submit herewith report of alien steerage passengers arriving during the week ended September 20, 1902, at the subports of Porto Rico.

Mayaguez.—September 16, French steamship *Salvador*, from Haitian and Dominican ports, with 12 immigrants. September 18, Cuban steamship *Julia*, from Cuban and Dominican ports, with 1 immigrant. Total, 13. Other subports, no transactions.

Respectfully,

H. S. MATHEWSON,
Passed Assistant Surgeon,
Chief Quarantine Officer for Porto Rico.

The SURGEON-GENERAL.

RUSSIA.

Plague at Odessa.

ODESSA, RUSSIA, September 9, 1902.

SIR: I have the honor to herewith transmit a translation of a telegram from official sources in St. Petersburg which appeared in a local paper

in this city. The situation here is not a satisfactory one inasmuch that we must wait for news regarding the plague until it is announced from St. Petersburg. * * *

Respectfully,

THOS. E. HEENAN,
United States Consul

The ASSISTANT SECRETARY OF STATE.

(Inclosure.—Translation.—Odessa Listock.—No. 28.—August 24 (September 6), 1902.)

Telegram from the Russian agency at St. Petersburg dated August 23 (September 5).

In Odessa, there continue to be discovered new cases of sickness suspicious of plague. From August 11 (24) to August 20 (September 2), there have been 11 new cases of sickness; of these, 2 persons died, and in all there have been since May 28 (June 10), 21 cases of sickness, of which 5 have died. The bacteriologist, Professor Visokovich, has again been sent to Odessa to take part in the discussion of measures against the infection.

In view of there having been discovered in the colony Gildendorf, in the circuit of Odessa, a patient who has been pronounced to be a case suspicious of the plague, the Cherson governor has been instructed to open a sanitary commission for the province and appoint a similar commission for the Odessa and adjoining districts.

Foreign and insular statistical reports of countries and cities—Yearly and monthly.

DANISH WEST INDIES—*St. Thomas*.—Two weeks ended September 5, 1902. Estimated population, 11,012. Total number of deaths, 17. No deaths from contagious diseases.

FRANCE—*Marseille*.—Month of August, 1902. Census population, 491,161. Total number of deaths, 804, including diphtheria, 2; enteric fever, 28; measles, 2; scarlet fever, 1; whooping cough, 1, and 23 from smallpox.

GERMANY—*Weimar*.—Month ended August 3, 1902. Census population, 29,000. Total number of deaths, 37. No deaths from contagious diseases reported.

Gibraltar.—Two weeks ended September 7, 1902. Estimated population, 27,460. Total number of deaths, 21, including 2 from enteric fever.

GREAT BRITAIN—*England and Wales*.—The deaths registered in 76 great towns in England and Wales during the week ended September 13, 1902, correspond to an annual rate of 16.04 per 1,000 of the aggregate population, which is estimated at 14,862,379.

Bradford.—Two weeks ended August 23, 1902. Estimated population, 281,770. Total number of deaths, 143, including measles, 2; scarlet fever, 2, and 6 from tuberculosis.

Two weeks ended September 6, 1902. Estimated population, 281,770. Total number of deaths, 149, including diphtheria, 4; enteric fever, 2; measles, 1; whooping cough, 2, and 13 from tuberculosis.

London.—One thousand four hundred and seventy-one deaths were registered during the week, including measles, 16; scarlet fever, 14; diphtheria, 23; whooping cough, 35; enteric fever, 16; smallpox, 2, and diarrhea, 252. The deaths from all causes correspond to an annual rate of 16.8 per 1,000. In Greater London 2,036 deaths were registered.

In the "outer ring" the deaths included 3 from diphtheria, 5 from measles, 1 from scarlet fever, and 5 from whooping cough.

Ireland.—The average annual death rate represented by the deaths registered during the week ended September 13, 1902, in the 21 principal town districts of Ireland was 17.7 per 1,000 of the population, which is estimated at 1,092,401. The lowest rate was recorded in Newry and Tralee, viz, 0.0, and the highest in Ballymena, viz, 38.3 per 1,000. In Dublin and suburbs 142 deaths were registered, including diphtheria, 2; enteric fever, 3; measles, 6, and 23 from tuberculosis.

Scotland.—The deaths registered in 8 principal towns during the week ended September 13, 1902, correspond to an annual rate of 14.8 per 1,000 of the population, which is estimated at 1,679,923. The lowest mortality was recorded in Leith, viz, 6.6, and the highest in Paisley, viz, 16.7, per 1,000. The aggregate number of deaths registered from all causes was 479, including diphtheria, 5; measles, 7; scarlet fever, 8, and 7 from whooping cough.

JAPAN—Nagasaki.—Ten days ended August 31, 1902. Census population, 131,700. Number of deaths not reported. One death from diphtheria, 2 from enteric fever, and 20 from cholera reported.

MALTA.—Two weeks ended August 30, 1902. Estimated population, 189,749. Total number of deaths, 203, including diphtheria, 1, and 5 from enteric fever.

ST. HELENA.—Three weeks ended August 30, 1902. Estimated population, including prisoners and guards, 7,500. Total number of deaths, 7. No deaths from contagious diseases reported.

SPAIN—Barcelona.—Two weeks ended September 15, 1902. Estimated population, 600,000. Number of deaths not reported. Fourteen deaths from enteric fever and 2 from smallpox reported.

Cadiz.—Month of August, 1902. Census population, 70,177. Total number of deaths, 166, including enteric fever, 1; whooping cough, 3, and 26 from tuberculosis.

SWITZERLAND.—Reports for the two weeks ended August 30, 1902, from 18 cities and towns having an aggregate estimated population of 770,000, show a total of 431 deaths, including enteric fever, 2; measles, 5; scarlet fever, 3; whooping cough, 4, and 60 from phthisis pulmonalis

Cholera, yellow fever, plague, and smallpox. June 28, 1902, to October 10, 1902.

[Reports received by the Surgeon-General, Public Health and Marine-Hospital Service, from United States consuls through the Department of State and other sources.]

[For reports received from December 28, 1901, to June 27, 1902, see PUBLIC HEALTH REPORTS for June 27, 1902.]
